NOTE FOR: Director, OIT

Ed:

I think this is a very good flyer issued by OIT. I'm already looking forward to the next issue. [ ] did a fine job.

If I had been asked to edit it, I would have done only one thing. In the section on the last page entitled, "And what does Mercury have to do with this?", I would have made the sentence read, "...OIT is actively working with OC to insure that NEWS and Mercury work together <u>to have the capacity</u> of providing interactive access to OIT computers from overseas." You know I have a hangup about this. It is one thing to build in the capability, it is another thing to use it.
